ELDERS CYBER FELLOWSHIP

TRINIDAD

THURSDAY 9TH MARCH 2023

BRO. VIN A. DAYAL

1 BRO. MERVYN WESTON: In the last message you were speaking and about three-quarters of the way through, when you had mentioned about the kings of the east diverting the riverbed, you started to show Argentina and Brazil, how Rome can be working through them to fix things her way.

2 BRO. VIN A. DAYAL: You're getting sharp, boy. You picked up that too.

3 BRO. MERVYN WESTON: When you had mentioned it... No, it stayed with me, when you had mentioned it...

4 BRO. VIN A. DAYAL: You have to have an ear to hear. You see, when that was said, it was said with a certain connotation to it. And I called Colin...

5 BRO. MERVYN WESTON: Yes, you called Colin. Well, I was now going to say that. So, since then it has been with me and I sit here tonight, like it's prompting me to ask more for edification too, you know, to get it.

6 BRO. VIN A. DAYAL: I think that is the motive to ask for...

7 BRO. MERVYN WESTON: Yes, yes, some more light on it. Because I came across too, this quote in the *Church Ages*, in the Thyatirean Age, [An Exposition Of The Seven Church Ages (The Thyatirean Church Age) -Ed.] where Bro. Branham was saying—just to save time...

8 He said: ... *which became the strongest empire... [he's speaking about Rome] the strongest empire ever known, was finally wounded to death. Her power was gone physically as to control by armies, etcetera. But under Constantine she came back to life, for papal Rome has infiltrated the whole world, and her power is absolute. She uses kings and merchants and in her deadly religious and financial strength she is governing as the goddess of this present age. She is also the dragon that stood waiting to devour the man child.*

9 When I read it, it came back to me again to ask, because, like how He showed she is in all the—he was showing how she is also in the ten toes; it came back to me when you spoke about Argentina and Brazil, which is like she wouldn't be just sitting down and watching this happening, you know. So...

10 **BRO. VIN A. DAYAL:** You see, sometimes the normal layman when they read about Rome, they can dismiss Rome like, that's a bunch of Catholics; what do they know about God? You understand? And that they don't have anything right, according to apostolic doctrine. Yet, that is the most powerful institution in the earth. That is the one that was here for the last two thousand years. Jesus was born under the Roman Empire. Jesus was killed under the Roman Empire. The Holy Ghost in the apostles and them, who went through martyrdom and these things were because of the Roman Empire, because all Palestine was under Roman dominion.

11 Then, when the church started, already in the church, after Pentecost, you got three thousand being baptized, you got five thousand being baptized and these things, coming into the church. Remember, when you say three thousand were baptized and five thousand were baptized, that is water baptism, you know. That is not saying Spirit baptism, you know. Anybody that gets baptized is considered part of the church by identification, but they are not placed by

Spirit baptism into the Body. These are people associating with Spirit-filled believers.

12 That is why every church, every local church has three kinds of believers. Just like us here in the assembly; everybody in the assembly was never Spirit-filled. I don't think anybody believed everybody was Spirit-filled. And then you had some people who could really talk. They were talking about the Word, talking about the Word, talking about the Word. And you realized, but look at how much Word they knew. And then you realize they don't have any real life in a way to respect and admire. And you start to realize now, look how quick their mind is, look how quickly they can learn, look how good their memory is, but that is not revelation, right?

13 But when we look at the Roman Catholic Church as you were saying there, at Nicaea, when the beast was wounded, it changed from a military power, a political, military power, because Rome was ruling. But when the beast got wounded, the beast was revived, and it rose as an ecclesiastical empire.

14 So, instead of you seeing big armies going out and the Roman army and they have all the standard and the shield and the army is marching and they're going into countries and they're killing and wars... Just like Alexander the Great had his armies, right? Just like the Medes and Persians, Cyrus and they had their armies, Rome had her armies. But it was the norm. This was the military power, this was to defend the nation and these things. And the more powerful the army is, the more powerful they are in their conquest, when they go forth in their conquest; more daring and these things. Because you are going up against an enemy. Ancient knowledge shows you, count the cost before you go to war. You don't want to go and start a war you can't finish. You have to know your enemy and know if you are able to wage a war that you can win.

15 So, when we look back from Nicaea, Rome, you stopped seeing those armies. Nicaea, that Pergamos Age was from 325 to 606. During that time Constantine and all the armies and things, all of that was phased out and became an ecclesiastical empire. So, it became the holy Roman Catholic Church, and they are claiming originality by saying Peter was the first Pope, because that is to get identification and make claim upon the original church that Jesus left. Because they were Jesus's disciples who Jesus promised that the Holy Ghost would come to seal them, not many days, which was ten days. He ascended the fortieth day, and the fiftieth day was the day of Pentecost. So, in ten days they were waiting, and they were in one mind and one accord and the Holy Ghost came, and you had a hundred and twenty Spirit-filled people there.

16 So they knew—everybody... See, that is a historical fact, so to claim originality you have to be identified and find some way to bring the original church and make a claim that it's yours, that that was their church. Because one of the early churches established was in Rome. Because in Acts 18, It tells you when Claudius came into power—after Nero died and so on and Claudius came into power, Claudius banished all the Jews. And that was how Aquila and Priscilla and they had to leave Rome and they ended up in Corinth plying their trade and making tents. And Paul happened to be in the city at the same time and he was a tentmaker, and he needed some money to survive and get around while he was there, because the Spirit of God led him to Corinth.

17 So, when he went there, he saw them, he realized they were Jews, he realized they were Christians, so he joined with them and they joined forces, which they became his helpers from there on – Aquila and Priscilla. But that was how he met them, because they were expelled from Rome.

18 Now the Roman church that was there, was because when Polycarp—the Prophet gave us the history of when Polycarp went there, and he saw all the things of Zeus and Mars and Jupiter and all kinds of different idolatry in the church. And when he saw all that in the church, you know, he wept, and he began to pray. And God said, “Leave Ephraim with his idols.”

19 Now in the Book of Daniel shows you when it came from the head of gold, the chest of silver, (the chest and arms), the thighs of brass and then the legs are iron. Well, that was there now; the legs came into two legs and that was where you had a split in the Roman system: you had the Eastern Orthodox Church and you had the other one, the Roman Catholic. So that is why these two came all the way separated, and just some years ago they came to make this peace and different things and the brotherhood of man. But really and truly when you watch, it came to two legs, but it was two legs of iron, and iron is Rome. And when it comes down to the feet now, the toes and these things, you have iron and clay. Because that is this system in its last stage. Because the Rock doesn't come to smite in the days of the legs, the Rock comes to smite in the days of the ten toes. You see?

20 So, to understand that system, the way they work, when they killed sixty-eight million people in the dark ages, under the age of martyrdom, that Jezebel system... And that is the type, that's why she is called Jezebel in the Thyatirean Age. Because the Holy Spirit put that in the New Testament, put it in the fourth age so that the true Church who will have this Book of Revelation will know that this system is the anti-type to Jezebel. And Jezebel came in and merged herself like a believer, but her father was really a murderer. It was a scheme to infiltrate Israel, coming first through the ten tribes and then to take a stronghold in the kingdom. And then when they got the ten tribes, well, the other

two tribes were smaller in number and that was where Athaliah—they brought the marriage between Athaliah and Jehoram, who was Jehoshaphat's son, because Jehoshaphat was king of Judah.

21 And when she married there now, she came in there and influenced Jehoram to kill all the royal seed, and that was how Joash was hidden. And those were things I preached extensively in the church; we even have it, I think, printed in book form, *The Royal Seed Hidden In The House* [2001-1230 The Royal Seed Hidden In The House Of God -Ed] and these things. And how Athaliah killed out these things... And how the Bible said they walked in the counsel of Jezebel. You see? Because now, Ahab was only a figurehead; she was the control. And the Scripture in 1st Kings 19 gave it to us very clearly there, where we see in 1st Kings 19, Ahab was on the bed crying, when Naboth wouldn't give him the vineyard.

22 She said, "What? Are you the king here? Are you the king?" And she kind of rebuked him and shook him up. And she said, "Leave this to me."

23 And then she got the elders and the nobles and all these people to side with her and she got the false witnesses to say that they saw Naboth blaspheme. And then it was a whole court that they set up, but it was with the intent to kill Naboth so they could have this land. And that is the story where Jehu and Bidkar—they were the escorts of Ahab. They were like, you know how the president has his special security forces around him? Well, that was them.

24 So, when they went now, he parked up his chariot and he went down, because they told him, "Go on, Naboth is dead. Possess your vineyard." And he went down and my, he was smiling, and he was so happy that the plan worked, they had it under control. And all of a sudden, Elijah walked out from under the shadow.

25 He said, “You didn’t just steal but you killed too, and now you’ve come to possess.” And he started to tell him, “The dogs will lick your blood and the dogs will eat Jezebel. Thus saith the Lord.”

26 He said, “You have found me out?”

27 He said, “Yes, I have found you out.”

28 And Jehu and Bidkar overheard that, and they knew... Now, it was a plot with him and Jezebel and they understood that now. And God now, made these things known to Jehu because God was going to anoint Jehu to become king. And when Jehu now was chosen as king, then he had the authority. He could go now and be the avenging angel with the destroying weapon to destroy and root up that whole Jezebel system.

29 So, all of these now, are mysteries in the Old Testament because in the New Testament in the Book of Revelation, that Jezebel is the Roman system. You see? And Jehu is the one that is going to bring the destruction upon them because of the deception. And so, as the Scripture opens with the shadow and the anti-type coming together, then those things now are identified in the earth, because the way it is placed in the Book of Revelation you know distinctly that that’s that system. Because historically, it is easily proven; she killed sixty-eight million in the dark ages. That’s history. See? Then, she took away the Bibles. She is the one who burned people at the stake. She is the one who tortured people. Because in Israel, she is the one that killed the prophets; she is the one that became drunk with the blood of the prophets. And what was the intention for? By destroying the true ministers who have the light, the darkness could spread. Because her church now became powerful, and they were going to go and teach all their creeds and dogmas.

30 So, that is why in this Day, when they saw Bro. Branham with that vindication—and those Jesuits

knew it had nobody in two thousand years who showed that sign. If anybody in the world knew it, the Roman church knew it, because they were there. Before the birth of Jesus, they were already the Roman Empire. Jesus was born 4 BC, and before, somewhere in about AD 33, (no, not AD 33), 33 or 34 BC, Rome was the fourth power established in the earth. And so, when Jesus was born, they were already like thirty years as the reigning power on the earth. And that is why they had Israel under their dominion. Because remember Israel, where Israel is placed geographically, all the trade routes, all the—everything was through there, all the wealth and these things. And so... Up till this day, that whole thing with the Heartland, and Turkey, and Syria and you get down there and you get out in the Mediterranean Sea and these things... Right?

31 When you go in the Book of Daniel, where Daniel saw the visions coming, the beast was coming out of the Mediterranean Sea. When you go to Revelation 13, the fourth beast was coming out of the Mediterranean Sea. Once you see you find the Mediterranean Sea and you find that now, you know the geography, and you begin to see the history, and you know the politics by the nature of the beast.

32 Is that too much? Is that too much for you all? Can you understand that? You see, reading the Word is not just like I'm reading the Scriptures like this. No! That sealed up geography, history, politics, religion; all of that is sealed up there. That's why it is sealed in symbol form. When that is opened in reality form...

33 Now, look at this simple thing. Revelation 13 is what? Daniel tells you it had four beasts, and when he went to describe the fourth beast, he said this one is exceedingly terrible, and this one maketh war, and this one stampeth the residue, and this one is going to devour the whole earth; he is describing Rome. Right? And the description he was giving there now, he

identified the first one with a head like a lion and with wings like an eagle. Then the next one is a bear and the next one is a leopard. But the description for the fourth one, he is now telling you how strong, how terrible, how ravenous, and with color, which is anger that this beast is going forth with. But when John showed the fourth beast in the Book of Revelation 13:1-10, because 11-18 is the United States, the beast from the earth; when God shows that here now, it was a beast John saw coming out.

34 Now John was seeing the same beast Daniel saw and John now gives us the information. He said it has a head—it's like a leopard; the body is like a leopard, the feet are like a bear, and the head is like a lion. Well, it has no beast in nature like that. When in Daniel it tells you the first beast was like a lion with eagle's wings, you find a lion and you find an eagle. Eagle's wings mean, *'the swiftness of the conquests'*. Lion means, *'the king of the jungle, the beast, the ferocity of the beast'*. That is that power. Because remember, Daniel 2 is showing you the same four kingdoms as metals. Daniel 7 shows you the same kingdoms as beasts, predators. Because 'beast' represents power in the earth, and you are seeing the kind of power and you are seeing the swiftness of the beast and the power of the beast. So when that was shown in Revelation 13, you realize now from Daniel, when you take that back to Daniel 7, it brings up the lion, it brings up the bear, it brings up the leopard, (you understand?) not as three separate beasts in Daniel but as a composite beast; showing you, when this one conquered that one...

35 What is war? When the Medes and Persians conquered Babylon, all the wealth of Babylon came over into the Medes and Persians. That is what conquest is about. When the lion goes after a wildebeest, to eat a wildebeest or a big impala or something, all the strength, all the choicest parts, he isn't going to just

take the tail and say, “Well, I like tail and ears,” and just eat the tail and the ears, then leave and go. No. He’s eating to bring forth a stronger set of cubs. And so, he has to eat strong and be strong and powerful so when he’s reproducing, he’ll be producing healthy, strong cubs because the lion has to stay at the top of the food chain. They are not going to be at the top of the food chain today and then tomorrow some other—they lose that power. Every kingdom tries to consolidate its power so that they can reign for long. You understand?

36 That is why when you are looking at some of this here you must understand geography, you must understand history, you have to understand economics, and you have to understand warfare, military, because all that is locked up.

37 Where is Iraq and them? That is geography, in the Middle East. Why? What does it have there? Oil. Where is the United States going with that kind of army, ‘shock and awe’, we’ll bomb them back to the ‘Stone age’; the “Mother of all bombs”, special bombs they’re going with to destroy that place and to take it under their control. Why? So they could control this wealth. This is not a beast going and saying, “You know, we are just passing through and you know...” This is not a serpent, this is a predator, and they’re coming in to eat and devour. And so, they take control of these resources, it’s now theirs, because they absorb all of this into themselves. One kingdom devours this kingdom, and this kingdom now is inside this kingdom.

38 So, that is what that shows you when you end up seeing the fourth beast there: a head like a lion, a body like a leopard, feet like a bear, it means that is those three powers. So that means when they conquered the first nation Babylon, all the wealth of Babylon... When Babylon took Judah, what did they do? They didn’t carry the whole nation. They said screen, get the scientists, get the men who make chariots, get the men

who make swords, (you understand?) get the people who know the arts and music and these things, and they left the rest to till the land. They didn't want all that trouble. The plan is, the invasion is for conquest and the conquest is to take the best things in the land to bring their kingdom to a higher and stronger kingdom that could reign for many years to come in the earth. This is the mindset, this is politics, and this is why everybody wants a second term. You understand?

39 When you're looking objectively in the earth, and especially in today's world because we're in the Age of Globalization, they're not going to join up with any weak, small nation and island if they don't have anything, unless they have Uranium or some special type of diamond or something, or wealth. Because, if you're going to take that responsibility with a bunch of people, and in the end you have to be taking care of them, you're retarding your own self, you're weakening your own self. You have to conquer, become stronger and move on to dominate and go forth to take more territories and make yourself the power that everybody else bows under. That is that move.

40 Well, it's the same way when God is conquering; when God started that spiritual warfare with the lion and then that came out to meet the white horse. And then, the red horse, the ox came out to meet that. And when you look on God's side too, the church is rising and rising, especially in the days of the Reformation, after they went down in the Dark Age.

41 From Luther, he said, watch, horse and buggy. Next, the Methodist – motorcar. Pentecostal – airplane. He said, in this Age now it's astronaut. It's getting more... The church is becoming more powerful because more truth is being opened. And when more truth is opened, God has different kinds of ministers for the Age to take that truth. And that truth is to bring Revival among the people. That truth is to separate an Elect from tradition

and get them established in the present Truth. So the Church of God is growing strong. So, it's a warfare. It's warfare.

42 So, when we get here and you get in Revelation, Jesus now, is watching and telling us what is in the earth. And then, when you look, you know your kings of the east and you know your kings of the earth.

43 Now, that is why you have to pay attention to detail when you are reading Revelation. If you are not paying attention to detail... Euphrates River – Euphrates is something that started in Genesis. Euphrates is connected to Babylon. Euphrates, it tells you, that was the, (how did they call it?) the breadbasket of civilization, because that is where Nimrod established his kingdom, and he built it on the Euphrates River. And Babylon, all the mysteries of Babylon and how she was so powerful.

44 I mean, Genesis 10 and 11 give you the history of Nimrod; give you at Babel, when they united the whole world together, globalization; when they had a plan to go up into heaven.

45 Now, when people read that, it looks primitive. How... But you see, this is where you need insight of the Holy Spirit.

46 How did Cain, who was a farmer, go out and build a city? Explain how a man who lived in an agricultural realm, a man who was there at the east of Eden, he and Abel grew up out—because God had put Adam and Eve outside of the garden when they fell, and Eve was carrying the twins inside of her, going out. And so, when they came now, they were worshiping together at the eastern gate. They were bringing their sacrifice to God, the one God. Then Cain, when he killed Abel, he was marked and separated from the Presence of God. Now he goes out of Eden, and now he's going and he built a city and called it Enoch, after his firstborn son.

47 Now, when you read that, how he built a city, what exactly did he build? If it said he built a city, he built a city, because a city is not a village. A city has to have a transportation system. A city has to have a certain amount of order and different things in it for transport, communication, you know, so that people who are in the city, they can—because it is in the city you set up all your platforms of power, and intelligence, and these things like Washington DC; like London. Right? Those are cities. And that is where they have all their big councils and their Parliament and all the different people that come and make the laws, you know, and they execute the things throughout the whole province, but this is like the headquarters.

48 So, it's the same way. Jerusalem was like the headquarters in Israel. Today, the Vatican City, that is really the headquarters in the earth for natural man there, because every other nation, whether you are in Europe, whether you are in the United States, whether you are in one part of the world, they are under the jurisdiction of that Roman system, because we are in the Roman Empire still. The Roman Empire only comes to an end when the Rock cut out without hands smites the ten toes and grows into a great mountain and fills the whole earth. Until then, we are in the Roman Empire.

49 And look at what the Roman Empire is today. Look at what it was back there in the time of Nicaea when it was falling as a military power. Look at the kings of the earth; all of them are going to the Vatican. And then, there is a group in there called the kings of the east, because the kings of the earth are kings in the earth and the kings of the east, the east is part of the earth too. And so, those kings... In other words, the same way Russia and they have their Catholic Church; Rome is everywhere. All these men are going to the Vatican. All these... America and Russia are like enemies but they

have a lot of agreements, and a lot of different laws and treaties and everything that they are working by that was established after World War II, because Russia and America were the two nations that actually brought down Hitler, and more so, the Russians.

50 So, after that war, they came into the Cold War and then these nations separated. So, when you miss the history, you also miss how they operate, how these powers move in the earth. And that's why, if you don't know the background of a thing and we are taking modern day information, which is, "And Russia did this, and so, and so," this is just propaganda and manipulation through the information media to control and influence certain parts of the earth.

51 Just like this Ukrainian war that is going on for a year already, plus, is the very evidence of that. It's lies from all sides. Up till today—for a whole year, it is lies. The media's bombarding one thing over and over and over trying to sabotage this, trying to sabotage this, like with the Nord Stream pipelines and all these different things. And you are seeing how predators, though they are saying we have good relations, yet they want to devour. It comes like a lion telling a giraffe, "We live in the same jungle. You all are giraffes and we're lions," well, the day they get hungry, they'll eat that giraffe. You understand?

52 And that's why 'beast' in the Bible represents power. And when we go here and you are dealing with the things like the finance in the earth, now, you notice, when you read that, you're not reading anything with finance inside of here, you know. What you're reading about finance in there, it has nothing talking about money or anything there. It is talking about the kings of the east, the river Euphrates, the water is dried up to make a way for the kings of the east and prepared, (right?) and then it tells about the three unclean spirits like frogs coming out of the mouth and different things.

And then it goes on to the spirits of devils working miracles and going forth to the kings of the earth to gather them to the battle and so on. And then Jesus slips in there, “Behold, I come as a thief.”

53 But to understand that now, where it says, “And the great river Euphrates and the water was dried up so that the way for the kings of the east might be prepared,” that there is a loaded, loaded piece of thing to understand the waters of the river Euphrates.

54 What is the big thing about the waters of the Euphrates? It is where that Babylonian system was set up. It was built on the river Euphrates. And again, you have to know geography and history because the trade and the commerce... You read your Bible and It tells that Solomon brought this from Africa, he brought this from India, and he brought this from there, and he brought the spices from there, and brought this from over here. When you're hearing him talking that now, Solomon didn't send some men with some bags and tell them to go and buy some spice and things, you know; no, this is trade and commerce you are looking at, this is your third Seal. And these were the countries that had certain commodities.

55 And so, what is trade and commerce? That is where you generate your wealth in the world. How many know that the biggest industry in the world is the shipping industry? How many know the kind of wealth that is generated by the sea? Planes transport people; those ships with those big oil tankers, which move that oil, and the next one with those big containers, furniture, cargo, appliances, all kinds of things coming from Japan, coming from China... Have you ever passed by one of those big ports, like Rotterdam? We've been in the Netherlands a lot. And Singapore – those are the two biggest ports in the world: Rotterdam and Singapore. When you see that little Singapore so, and you see the kind of trade, because where they're located... You see,

once you are in the sea, your port, you have to have a port where the goods from different parts of the world could be brought for you, because once you get on the ocean, then you can go to any destination where people are buying your goods and trade and so on. Because there are certain kinds of goods that cannot go by plane.

56 When they are bringing all those big motor cars, Japan is bringing thousands of motor cars, no plane is bringing that. You understand? What is bringing that now, are these big container ships and these things. And so, the wealth... When you go to Revelation 18 in the Bible and it says that the merchants of the earth, how they wept, and it gives the long list of all the commodities, and you go in Ezekiel 27.

57 I mean, these are the things I preached on in the church extensively. Ezekiel 27, the trade of the king of Tyre; *Tyre And Her King*. [1993-1013 -Ed.] *The Woman That Sitteth In The Midst Of The Ephah* [1993-1017 -Ed.], from the land of Chaldea and the wealth they are taking. All of this is a symbol and revelation of Rome and her trade in the earth. When you read of Nineveh it looks like a different thing, but 'Nineveh', again, means '*habitation of Ninus*', which is '*habitation of Nimrod*'. Nimrod was the king in Babylon. And you go to Genesis 10, it tells you he built these cities. The last time I preached on it was when I was preaching for Bro. Itok [pastor in Medan, Indonesia -Ed.] and them, and I went through the cities. I said, "Look, the different cities here." And I said, he is not just building cities; he is building cities strategically with the trade routes to control the wealth and the movement of the goods and services in the earth.

58 Now, the Bible does not explain that in the chapter you're reading, but that information is in different parts of the Book, and then it's showing the trade and the commerce in other parts. And when you come to Revelation now, it's just telling you, black horse and he has the balances – measure of wheat for a penny; a

measure of barley. That's a symbol dealing with trade and commerce. You have to go now and find and see how trade and commerce is conducted.

59 The first time you see the scale, Abraham was purchasing the land and he's paying the present market price for the land and these things, and they're weighing the money. That's the first time you're seeing that. That's a business transaction, but in that business transaction, that is a mystery of Calvary because Jesus was paying a price on Calvary and the price here is Blood, and it's for a people and its redemption. You understand? We are not our own; we are brought with a price. He paid the price of our full redemption. See? He has rights of ownership because we are His purchased possession.

60 You see why that depth takes the Holy Spirit, because without the Holy Spirit, you're reading that and a lot of it wouldn't make any sense until... And that is why the Seals, the Seals in the Book of Revelation, it is so important. He said, when this opens here, the whole Book is opened, because this is what had the Book sealed. Because everything there is in symbol form, but in certain parts of the Old Testament you have the history.

61 It has different histories: Syrian history, Babylonian history, Grecian history, Roman history. And you go through the histories and you're seeing the power... That is why the four Gentile kingdoms in Daniel are so important. It's not to just say, head of gold means that; chest of silver means that. No, no, no. It's understanding the world and the nations that are dominating the world, like America is powerful right now; America and Rome – the Vatican and Washington alliance. They're powerful in the earth right now, because this is their time. They deceived the whole world. Well, before that time, you see nations... Look at England who was at one time a power; look at England

now. You understand? Look at Greece; it was a power. A few years ago Greece went bankrupt. You see?

62 So, when you get into the Word and you begin to see... I mean, these things, I can say as much as I can say, but, I don't want to be throwing water in the sea here, just going along talking and then you can't make the connections. Because, for people who studied this, if somebody who studied this listens to what I'm saying here, they'll realize how precise I am speaking, you know; they'll realize how clear the Spirit is laying out these things and placing it out and giving you Scriptural application. But as I said, people today, when they say 'Message', they don't know geography and they don't know history. How could you know what's going on in the world if you do not know geography and history? These are two of the most important things. Because every war is for resources, and geography tells you what's in the earth and why they are fighting the war: why they want that nation; why they want to control this trade route. You understand?

63 So, when we... Now, if you go to a higher school, let us say university... You all know I dropped out of school, right? I never went to any university and these things. But the thing is, what I am taught, I am taught by the Spirit from the Bible. I am led by God. The kind of things I read down through the years, and the kind of things I researched and different things, is because I want to know what I am talking about if I have to talk about something. Because when you're getting revelation in the Book of Revelation, the first two chapters—the second and third chapters rather, that is two thousand years of Seven Church Ages history.

64 If you read your *Church Ages* book, and without the understanding of each Church... And the way the Prophet laid it out, he started with the city, the name of the city. He started off with the characteristics of the city; then he was showing you, those characteristics

have to do with a future Age, because this city really represents an Age of the Gospel and when civilization was following the sun, coming from east to west. So that means, when you hit Martin Luther, your sun is not in the east again; your sun's out there in Europe, but you are heading to the United States because that is where the sun would go down, on the West Coast, and then go back east. But this is really a two-thousand-year history.

65 That's why he said *There Is A Man Here That Can Turn On the Light* [1963-1229M -Ed.]. He said, watch how the light comes. It comes geographically, it comes historically; it comes Scripturally. You understand? And he's showing you... Now, he's just making the statement, because he's not going to stand up there and explain all of that in a church. He knew it would have men who would come and make those things clear.

66 So, half of the time, like over the years, teaching a lot of these things, they said, "What is he teaching?" They said, "He went off the Message. He's gone clean out of the Message. What is he going to teach, trying to teach those things?" They're in a world today; they don't know anything about the world. All they know is that they have a picture of the Pillar of Fire over Bro. Branham's head, and they have a picture of the Pyramid drawn, and 'we're in the Message'. And what's going on in the world, modern events, they don't know what that means.

67 You name me three Message ministers who preach the Book of Revelation. Now remember, I went around the world about five times on every continent, so I think I ought to know how many people understand the Book of Revelation. And the Book of Revelation is written for the last-day Bride, that's why it's sealed up in symbols. And that's why it had a Prophet. And Bro. Branham is in Chapter 1 all the way to Chapter 22, in every chapter of the Book. I sat down with the Latin American

ministers and showed them that, because he's the Angel there. John was transported into a future day, the Day of the Lord, which is between His Priesthood and His Kingship.

68 His Priesthood is Son of God; His Kingship is Son of David. Son of Man was to be revealed in the last days between Son of God and Son of David. Son of God was Seven Church Ages; Son of David is the Millennium. Between the Church Ages and the Millennium, that is where we are living. The Day of the Lord is where He's the Judge; that is why He appeared with the White Wig and these things. That is why the Prophet was on the earth in that time to make these things known.

69 Now, that is not written to you in three consecutive pages to get that information. Some is in a Message here, some is in part in the Church Ages book, and some is something in the Seals book. So when a man come tells you, "I'm not seeing where the Prophet said that. I'm not seeing where He's getting that from. I'm not seeing this here," what would you tell people like that? Because these kinds of people are not interested. They can't see. Like how some people, you know, when they can't see it, they say, "Brother, you have to preach the promises, man. Preach the promises." Ok, what is the sign of the time for that promise? What is the sign of the time for that promise? Which part of the earth that prophecy is going to take place? Which part of the earth? When you go there they can't tell you. And why did God put all of that in the Bible and then it doesn't mean anything? And especially in the last Age when knowledge shall be increased in the last days; when we're in an Age of Globalization.

70 That is why, today, when you find Message people, they know one-tenth of the Message: God sent a Prophet, denomination is false; it has a Rapture. And the Rapture, well, more and more—well, you know that in the last 2020, 2021, 2022, and 2023, I kept saying, I

said, people are talking about they're looking for the Rapture but they are not conscious of the requirements, the qualifications and the identifications to go in the Rapture. They're not talking... When they're talking about going in the Rapture, they're not talking about the experiences that have to be fulfilled in the lives of the Elect who are foreordained to go in the Rapture, because they think they can go in the Rapture without knowing who they are, without knowing what God is doing in their lives. "We don't have to know all of that. All I know is that God has chosen me." That doesn't even make any sense.

71 Because faith is recognizing your position in the Word. If you're claiming to me that you have faith and you don't know your position in the Word, what God has made you in Christ, where you fit in the plan, your time and season, and what anointing is for that Age to be on you, then you're talking about literacy that you could read. But the Word is not reading; the Word is applying: where does that fit in the Word? Where would you apply that? What does this represent in the Word? What are the other Scriptures connected with this to bring this thing to light here?

72 When the Word gives you a white horse, every Seal there, in the first four, are two verses. One's going forth with a sword taking peace from the earth. Which part of the earth was that happening? Which war was being fought there? Now, the next part: trade and commerce. "Yes, that is trade and commerce; your third Seal." Which were the nations dominating economics, and trade and commerce in the earth? Wars are fought for resources, wars are fought to occupy strategic positions to control certain territories if you want to be a dominating power. These four beasts in the Book of Daniel, they were predators, that was—each one's contesting, which is war for power in the earth.

73 Why does America have eight hundred—well, I read recently from a whole list that there are nine hundred military bases. Why does America need nine hundred military bases in the world? Think of it. Look at America and China. Look at France and these nations—Africa rather. The French have been controlling a big part of Africa for years and years and years, and the people are in poverty. China went in there; built the universities, built the highways, built the railway systems and built all kinds of different things. So when the people start to turn towards China, all these exploiters: England, United States—how England went to India and colonized that place there. The people’s wisdom is far, far, far beyond the wisdom of the Englishman. But the Englishman, as small as England was, they controlled the world for a long time when they said that the sun doesn’t set on the Commonwealth. Organized – they were so highly organized as a people that they controlled big continents: Africa; Asia. They controlled those continents and they’re an island.

74 You see, this is... And it was because of the illiteracy of the people in those countries that were conquered and controlled. And you don’t educate them right away; you will select. What do you think your test books, while going to school, were about? Was that just to carry home to show your mommy? No, that is those who are controlling the school. That is how, when Babylon took Judah, the kingdom of Judah, they screened them: “Take the wise ones. This fellow here, he came last in test, six last-placed tests; he isn’t going anywhere. Leave him to plant a garden over here.” You understand?

75 They want the ones with... Look at Daniel and them. They ended up as Prime Ministers and all kinds of things down in Babylon. They were in the courts. That whole system is to track people. When they come now, and you—they look back here: “Scholarship for you.

You're an athlete – Olympics. Yes, we're going to use you for influence, for youths, schools and different things. A singer and different things, we get you." That is why they take all these gifted people and then use them like the Pied Piper to influence everything; to control the world.

76 That's why the Prophet said the only thing that can outdo the antichrist is the Holy Spirit, you know. You want to [recording inaudible -Ed.] for Satan, or some Jesuit... You meet a Jesuit—two Jesuits... It is the Jesuits... The very first time I read where they were talking about, "And Bro. Branham did this, and so and so and so, and this here," I said, "That is the Jesuits." I said, "That is the Jesuits." Who else? I said that the reason they're doing that is because in two thousand years they haven't seen a man like that. They put him on the machine, and they said, "Examine that man." Bro. Branham told it, but he didn't say everything. What did they want to examine him for? They said, "We realize that you can dream while you're awake. We have never examined a man like that in all our years."

77 He said, "Yes, that is like..." He said, "Do you know about the seers in the Bible?"

78 He said, "I'm a Presbyterian. My church doesn't preach about that." The doctor told him that. But he slipped in those things there in the Message.

79 Then, there's the time when God told him, "I made you that way for a purpose." And then he started to show everybody, "You are fearfully and wonderfully made."

80 A man that's called to teach, he's fearfully and wonderfully made. He's designed (the Prophet said this), to stay like that and set under the Anointing and start to make those Scriptures—read those Scriptures together to bring the picture and make it make sense.

81 A man called to be an evangelist, he said, he has a boldness, he has a swiftness. Like the evangelist in the service, the eagle, the flying eagle, he goes out there, moves into a city, shakes that city, preaches repentance, and people come there because he's not going out to play around.

82 When the man is an apostle, he goes in there, churches are being set up, and he goes and sets those churches in order. It is men designed for something. It is not, "I like that. I prefer this one than that. I prefer God use me like this." No, no. God is the one with the plan; we are just material. We are just material that God planes, designs, cut, fixes for the work He wants us for. And then when that is so, you actually see that Word coming. Where He sends you, it needs that kind of gift for that.

83 I want to take a pause there, because I don't know how Mervyn is going to get back there because, you see, where I'm showing there, he heard the part with Argentina and Brazil. From the time I saw that they wanted to join BRICS, the first thing I thought was, "Well, they are two Catholic nations." They are the two biggest Catholic nations in all of Latin America; how the Catholic Church, who is prophesied to rule the world and control of the wealth of the world, and these two are putting their money there? I said, that's a trojan—something inside of me said, "Trojan horse."

84 Do you all know the story of the Trojan horse? When the Trojans and them from Troy wanted to get into the city, they built this big horse, but the horse was hollow inside. And they left it in—they put it there on the seashore by the gate to the city, but they had some men inside, hiding. So the next day, the people saw this big horse like a gift of the gods left for them there or something. They pulled it in the city and found a nice place to put it up, not knowing there were men inside of

it. So when the city went to sleep, that was a strategy the men and them used to come into the city.

85 So, when I saw them going into BRICS, to join there, I said this present Pope, this Jesuit Pope is from Argentina. These people, they already saw the trouble and the bad moves they made right here with this war: sanction, sanction, sanction, sanction and it all backfired on them, and caused them billions of dollars in all of that too, because they weren't able to read what was going on. Because half of these idiots... Half of them are idiots, you know. Don't you see how many women in Europe are ruling men? Prime Ministers: Finland, Sweden, Italy. When you see that, it's a sign of a fallen thing. It shows what we understand about man and woman.

86 That is why I was making the joke yesterday in the service. I said, "God didn't say, 'Let us make woman in our image and our likeness and I will make a man for her. It is not good that the woman should be alone; I will make a man for her.'" And I said, "Christ..." And when the Bible said, "Christ is the Head of man... And the woman is the head of the man." You know? I said it is not so. Today they want to shift it around and make it so, because they're not dealing with God. They are blind to God and God's purpose on these things. They see that the world is material and once we have control over the material—and to be able to withstand anybody, we need weapons. So that is why everybody wants weapons. That is why the Military Industrial Complex, these weapon manufacturers are so wealthy. Because every nation wants, "We want four F-16. We want so and so, Tomahawk missile. We want so and so and so. We want satellites put up." Everybody wants to protect themselves with something, and these people are providing it because they are manufacturing these things. So, that is how they feel safe because they put

up some piece of technology and they think then, that is going to save them.

87 But Judgment Day is coming because of sin. Judgment is coming because of rejection of God and rejection of Light. And remember, the devil never created anything. He is trying to do all of this in God's earth that God created, and God has laws. He said He will destroy those who destroyed the earth, because they keep destroying the earth to make more weapons to kill one another. And God let them go on. And then, finally, like in Genesis 6, which is the repeat in this Day: "As it was in the days of Noah, so shall it be in the Day of the coming of the Son of Man." God said, "My Spirit shall not always strive with man. The end of all flesh is come."

88 Armageddon is for the end of all flesh. That is nuclear. That one will be nuclear. In one hour, you will see the Vatican vaporized. And the world right now is so close because of the idiots that they have there, and because the Vatican... Remember, this woman wants blood and blood and blood. It's in the Church Ages book. They want more blood.

89 So, this is put here between the sixth and seventh Vials. So, what I have gotten from this and when I had preached, *Behold, I Come As A Thief*, about five, six services on it already, is why Jesus put, "Behold, I come as a thief," while they are gathering for Armageddon, while the waters of the river Euphrates is drying up. Because it is a symbol. Euphrates speaks of Babylon, and the water is through their trade and their commerce. That's where their wealth came from. Because back there in the ancient time, because of where it was situated it was convenient; it could go into any part of the then known world that was powerful.

90 And so, they had all the ivory and things from Africa, they had all the silk and things from India, they had all

the different things from different parts of the world, and so, Babylon flourished and was so wealthy and was so great, you know. But that is a prophecy because that history is to repeat itself in the last days. And when that history is repeating, Jesus said, “Behold, I come as a thief.” And the parables, when He opened the Seals in Matthew 24, He said if the good man knew what hour the thief was going to come he would have been watching, because he is coming to take. And then Bro. Branham showed us, like Romeo, He is coming to take Juliet, He’s coming to take the Bride in secret – the sudden secret catching away of the Bride.

91 So, that’s why, when we see this thing about... And you heard me in the last service, I was talking about the de-dollarization by the kings of the east and Saudi Arabia, drying up the water of the river Euphrates. In other words, what they are doing, they’re diverting the trade and commerce that the waters bring to Mystery Babylon. Because of that river they don’t have to go out somewhere to get the wealth; the ships come in right to their place, because it’s so strategically located, that all the merchant ships...

92 Where do you think Italy is? Go on a map and see where Italy is and see Rome, the city, the capital of Italy. And see, when he said all the rich merchants, see all the big shipping magnates and them in there. Remember Jackie Kennedy? She married Onassis. [Aristotle Onassis -Ed.] Well, Onassis was one of the big merchants in Italy. If you know the shipping industry, Rotterdam and Singapore are the two big, big ones. Most of the world’s goods come out of... They are the two busiest [ports -Ed] of the trade and commerce. And then, they have the other trade routes. Because remember, when people were buying tanks, buying planes, buying different things, that is coming as cargo. When people are buying all their goods and services; motor cars...

93 Think how many motor cars there are in Trinidad. They are bringing new and they are bringing used. And people have big, big parking lots packed up with them. Well, that is a joke. When you go to places like Miami and these places and you see the size of some of those lots that they have with motor cars and vans and all kinds of different things, by the thousands out there. Import. They bring it, because with that kind of traffic in the States [USA -Ed], you want a smaller car to get to work quickly and move through the traffic and different things. So you have your big car when you're with your family and certain things when you're moving, but you have the small car on the busy days when you have long, long traffic piled up.

94 The Word means nothing if you can't see It in the happening, because you'll read It and we'll have thoughts in our mind of what we think It can be, and everyone has different thoughts. But when the Word is being manifested and you're seeing the Word, you understand trade, you understand commerce, you understand how goods and services move from one place to the next. You understand currency; the stock market and the value of this one dollar to what they measure it by. Then this other country, their currency is lower, and so, you get that.

95 So where they come in here, the kings of the east, you see where Russia, China, all these other nations, Saudi Arabia, all of them and plus BRICS—because Russia and China are part of BRICS. BRICS is B - Brazil, R - Russia, I - India, C - China and S - South Africa. B-R-I-C-S, BRICS. And then, from there after, you have Saudi Arabia, which is the biggest oil giant in the world. They now want to go with BRICS. Everybody is getting away from the American dollar because the dollar is what was used for so many years after World War II there, as everything is pegged to the dollar and the value of the dollar and these things.

96 Remember back in the early days when I preached about Feldstein [Martin Feldstein - American Economist -Ed] and all of them and how they wanted to resuscitate the dollar? Back in those days, I preached plenty on the economics, (you see?) when they realized that they were thinking of changing the dollar and the dollar was going to fall and different things. But up till this day, they're using that dollar. But with this last war here, the world is changing from a unipolar world, which is like America, who was the one nation that wanted to put everybody under their dominion, to a multipolar world.

97 So with these other big economic powers now, Russia and China and they coming in, well, they said, "Well, we don't have to work by the US dollar anymore," so they moved away from the US dollar. So, they are trading in oil by the billions of other money. And then, these other nations now, are realizing that the Americans want a monopoly and control over everything, and for years they have had everybody under their thumb with all their arrogance and all the different kinds of things, so they started to pull away too. Well, what do you expect Rome to do? Rome sent two of her children to go in.

98 Remember, it's not a Prime Minister that rules a country, you know. In these Catholic countries, the Bishop has more power than the man who is the Prime Minister, you know; the bishop in those cities, you know. Because Brazil and those places are like 98, 97, 98% Catholic, Roman Catholic. It's Portuguese Jesuits who went down there and, what they call, discover the nation, just like they said Columbus discovered here. It had people and everything there but they went now, and they built up their systems, and they brought them under their religion, like Mexico and all those things.

99 Catholicism is the religion, because Canada is Catholic, the United States is Catholic, Mexico is Catholic, Panama is Catholic. All the way down from

Mexico to Chile, all those countries are Catholics. So from Alaska to Tierra del Fuego are Catholics. That's the largest Catholic population in the world; not Rome. Rome is an island, but the kingdom, the Catholic kingdom, is from Canada all the way down to Chile. And that's North America, Central America and South America, and you have two of your biggest continents right there.

100 And that didn't start recently here; that's since the Civil War. They said the first boat, when they were leaving Europe for freedom of religion, had Jesuits on those boats when it landed on Plymouth Rock. That's what *50 Years in The Church Of Rome* showed you, by Charles Chiniquy. If you've never read that, read that. Well, we've had that circulated amongst us, quite a lot of people.

101 So Merv, I do not know if you had a particular thing, but you see, the events, how it is placed, one: it showed you one in the religious realm – unclean spirits coming out of the mouth of frogs, of the Beast—the mouth of the Dragon, Beast and false prophet. This is the religious power here. And unclean spirits are lying spirits; this is deceiving the whole world to gather them to the battle of that great Day.

102 Then you have the drying up of the Euphrates; that is diverting the wealth that the trade and commerce bring to the people. Now, that is exactly what is happening right now with all these new trading blocs and these things that are being set up. Because they have what you called the Belt Road Initiative, which is a whole new system that the Chinese and them have brought in, and it's going to be from Europe all the way to China; trade and commerce and everything. And a lot of those nations have already invested in it and the whole thing is being connected for transport, for the different goods and services and these things. Because once the Age comes into globalization, everything is a

great restructuring, because it's a New World Order emerging. You heard me preach those messages back there on *The Emerging of A New World Order*, [2008-11-23 – Ed.] and then about the breaking down in the time of Obama [Barack Obama, 44th US President –Ed.] when I preached on the breaking of the present system to rebuild the new system. You see? Because Obama and them, these were men that they put there. They didn't win any election, you know. These were men that they put in there to bring in the gay religion and bring this and all these things.

103 Clinton [42nd US President –Ed], he was the man; he was one the biggest drug pushers that they had. The Bush family [41st & 43rd US Presidents –Ed], they were one of the most ruthless; with the places that they dealt with all those Arab sheiks and different things and the kind of unimaginable wealth that they controlled. These are the presidents and them coming down there, in the United States. That's why Bro. Branham said, "If you put a George Washington and an Abraham Lincoln in every city," he said, "you can never bring back that nation. It's gone. It's past redemption." But people don't see that. When the bomb hits, they're going to realize. But for Message believers, that is nothing new, because that's why a Prophet came.

104 When Noah—when Enoch told them judgment was coming and then Noah, God said, "Build the ark; the end of all flesh is come," the world didn't know this news, you know. The prophet of God, Noah, knew this news and he was building this for him and his family. This wasn't a message, like, to the world, you know, because the whole world had already rejected God.

105 The scientists were bringing out things continually evil: all the cloning and all the different things they were doing, which they're doing today since they decoded the Human Genome Project. Then they brought in all these set of lies to the people, about how they're in contact

with extraterrestrial people, aliens, and they're making contact and they're going to arrive; some are going to arrive and pass on their knowledge. They're in contact with demon powers that are deceiving them.

106We know about seven dimensions. Scientists don't know about seven dimensions, you know. It's by a Prophet we know that the fifth one is Hell. We know when that one's going to open, under that fifth trumpet; that the key was given to open the bottomless pit for them to come out. We know in 1963, the Prophet said, "I don't have to go back into Hell. What I saw in Hell is here now." He said, "Hell is being created on the earth." Who listened to that? Not even Message people listened to understand. But he was speaking the things; he was placing the things.

107That is why believers, true believers, don't gauge themselves by, "I wonder what that brother is preaching. What does he think about that? I wonder what that one is thinking?" I don't have anything to do with that, you know. The Prophet has spoken; I believe him. I started to study the things he brought and God started to teach me further on the truths, because his language is a language that I understand, and few people understand how he spoke. So, sometimes they think, no, he mixed up himself here. No, he didn't mix up himself there at all. Sometimes he's giving you about two sides or three sides of the same picture. It depends on what perspective you're looking at and it depends on what application you want to make, because that's how preaching is.

108A person who doesn't preach would never know some of these things, you know. Because, I will be preaching, and then you're preaching on something and you don't know certain things, but I preach by inspiration. I don't really—I have notes, but I really don't go just for notes. Because when you're there and something starts to come into you and teach you further

on that Truth right there... That's why when I preach, I listen over and make notes. That's how we started to tape in Fran Street. That's how we started to tape—record the service in Fran Street. The Spirit came and would speak out things, and when you're done you can't recall it, you can't remember all of that. And we said, "No, boy, we have to have this recorded." And that is how it went and... We had the little tape recorder on the little tray and recorded the service because the Spirit was speaking out things.

109And that is why, when you watch, the Spirit will never leave the Bible and the Message. The Spirit speaks Bible and Message, Bible and Message, Bible and Message. If a person can't see that, you know, they miss a big part of the reality. Because the Book of Revelation, this is what—this is the whole Bible. The Book of... We had the Bible but the Bible was sealed. The Book of Revelation now, is that whole Bible from Genesis 1 to the Book of Jude, inside of Revelation. And when that Book opened... Because when you come in Genesis, what is the first Church Age? "I will give you to eat of the Tree of Life; to him that overcometh." Because, why? The woman was deceived. "Repent and get back to where you fell from." That is your first Church Age. That takes you back to Genesis. Genesis is where the woman was deceived. Genesis is where the woman fell. Genesis is where they tried to take to eat from the Tree of Life. You go back to Genesis.

110When you're in the Book of Jude, the Book of Jude tells you, Enoch the seventh from Adam was raptured. That's too much.

111The word they used, Mervyn, is 'de-dollarization'; that means, '*moving away from the U.S. dollar*'. And the kings of the east and Saudi Arabia and other nations, who have come to see the lies, and the hypocrisy and the dominance that the U.S. is trying to put upon the nations. And then some people now, are seeing this and

seeing that other nations are moving away, then they are getting some courage and want to start to have trade with others. And then, some are being told, “You cannot have trade with them.”

112And then, look at the war with Russia there. You had a hundred and something, ninety-one nations or so, who wouldn't vote against what America was doing, to show you how strong their grip is upon the world still. But then when you have nuclear power... You see, Russia is a nuclear power so you can't treat them like a boy scout, because they have the same nuclear power. And as far as Russia is concerned, their own is more advanced than the U.S. own.

113Remember a couple of years ago when Putin [Vladimir Putin, Russian President -Ed.] gave the simulation and the bombs came down in Florida? And he scared them and they got shaken up. And it's like, “You all went out there with your nonsense; watch.” And he has this hyper... (hyper... What do they call it? Sensitivity? What do they call it? I do not know the name.) [Bro. Colin Wellington answered, “Hypersonic” -Ed.] Hypersonic. He had these hypersonic weapons.

114And so, while they're carrying on and they're going in different places, they're upgrading their facility. Because let me tell you all, really and truly... I mean, I'm not on politics. Politics is part of the world but I know the world and know what is happening. But the thing is, Putin is wiser than, from maybe, John Kennedy [John F. Kennedy 35th U.S. President -Ed.] all the way to Biden [Joe Biden 46th U.S. President -Ed.]. When you listen to Putin talk, and you listen to Biden talk, you listen to Trump talk, you listen to them, those fellows' heads are so full of marbles and nonsense. It's just the American big 'jefe' [boss -Ed.] spirit they're trying to put over, but nonsense. And when they send reporters and different things to question him, he deals with them like the little children, because the man's I.Q. is so far above theirs. But the U.S. always

has [a concept], “Ah, those Russians and them...” Because, you know the kind of presidents they had before, right? They had those presidents and them, a lot of them were alcoholics and, you know, they really were not like statesmen. They were kind of raff and a certain way.

115 But this fellow here, he’s a different kind. They can’t deal with him, and that is why their method is to demonize him. But then people are realizing now, he’s cool. He isn’t arguing with anybody. He’s going about his business; do what you all want to do. They put sanctions on him; do what you want to do.

116 He said. “You are crossing a line here, because where you want to set up all this system here, it’s only taking five minutes for us to get nuclear. And we’re not going to sit down and you all put up all of this around here and try to say, ‘No, no, no. They misunderstood the treaty and it really wasn’t so, you know. They didn’t really cast that, like, in concrete so we can still do this here.” He said, “You’re coming too close. You reach there, that’s it.” And from the time he saw they did that, he made his move and he made a decisive move.

117 Do you know how many billions of dollars in equipment and tanks and bombs and planes and all kinds of things that just got lost and went through by trying to fight against Russia in this war? And Russia is just dealing with the Russians in there. Fourteen thousand they already killed from 2014, killed them inside of there, because they have Nazis. Now watch the U.S. The Catholic had a concordat with Hitler [Adolf Hitler, Germany Fuhrer 1934-1945 -Ed.] during World War II. They have Nazis in Ukraine, all the insignias and symbols and everything, ruthless, and they even told Zelenskyy [Volodymyr Zelenskyy, Ukraine President 2019-current -Ed.] we would hang you up and kill you if you don’t listen. And they have dominance over him. And the U.S. knows this and is supporting these Nazis and them who killed over

fourteen thousand Russians inside of there. Since 2014, they were talking to them about this. From way, about 2008 to 2014, fourteen thousand they killed. And when they were making that move, he said, “No, we’re going in.”

118And that is why, you see, it’s a kind of cat and mouse thing. So they’re using the media to continually... The rulers of the darkness of this world keep the people in darkness, because the propaganda war... I mean, it is something when you... People don’t understand the power of propaganda war, you know. The whole world is trained to listen to the media to get their news. And then, all these small islands get from Reuters, and Reuters gets from the big media houses. Leave it up to us, and we’ll just be reading Trinidad’s news. You’d hear this man did something in Toco [Fishing village in Trinidad, W.I. -Ed.]; this man did something over here. So to make the newspaper relevant, they go into that kind of thing. But what is happening there now, they’re controlling that news in such a way, they...

119When this war started, just like when they had the Iraq war and those different wars, the Libya war, people were with maps and they were in the middle of those cities in the States and they were showing them and they were asking those Americans, “Do you know where this war is going on? You all are voting for this war and calling for it; where is this war going on?” They couldn’t find Libya on the map, you know. And then that happened quite back there, it happened when they went into Iraq and then in this present time too, in Ukraine. They can’t find Ukraine. Where is Ukraine? Yet, they’re against Ukraine, and so and so in Ukraine, and so and so in Ukraine, and those Americans don’t know where Ukraine is. Why? They have that nation so drugged and so desensitized.

120That’s why Bro. Branham said, “This is not a spiritual nation.” They had the greatest Prophet who

ever walked the face of the earth and they came and rejected that. They had Billy Graham and they had Billy Graham's sons and different ones in the White House; not him. When they wanted him to bow to the Vatican, he said no. He didn't take that there. He knew who was in the White House.

121 It is he who taught me these things. It is he who taught us these things. Because he is the Angel who told John, "Come, I'll show you the judgment of this great whore." He is the Angel in the Book. So one of the Angels who had one of the Seven Vials, that's him. And that same Angel who had one of the Seven Vials said, "Come, I'll show you the Bride, the Lamb's Wife." He showed him the false church and he showed him the true Church. And he had a measuring rod, measuring the City too.

122 The Message of the Hour is the greatest thing there is on the face of the earth, because it's the only thing that could change people from mortal to immortality; it's the only thing to make them know their time and their season and their promises; it's the only thing to show to the Bride the mystery of Herself in the Word of God. No denomination, put all together, can bring a message to reveal any of those things, because that is of the world. Laodicea is what? Blind, wretched, naked, miserable and knoweth it? No. And knoweth it not. They don't have a clue of what is happening.

123 All these big so-called... I watched this Hagee [John Hagee, US evangelical pastor -Ed.] and some of them standing there, and they're preaching. He's already preaching the Third Woe and Israel. I said look at it, 'made in the U.S.A'. By the time you see this one 'made in the U.S.A'. Look at Joel Osteen, T.D. Jakes, all these crooks. And they're just there. When the time came with the thing, all of them had to go in the Vatican. In 2008 I preached, the Subprime Mortgage Crisis. And then Kenneth Copeland [American Televangelist -Ed.], all these ministers who

said they believed in Bro. Branham, were in Bro. Branham's meetings, big evangelist, went in the Vatican. I showed the videos in the church with the, (what's the man's name who they killed in the end?) Palmer, Tony Palmer. [Anthony Palmer, South African Theologian -Ed.]

124And then you see the new thing they have. Well, it was there for a while but it's starting to come into the news; which are the families of Abraham. So, the Jews are descendants of Abraham, the Muslims are descendants of Abraham, and the Christians, who are descendants of Abraham through Christ. So we all are Abraham's seed and we all should fellowship together as one. So they carried that to a next level now. So you get Jews and Muslims and everything – ecumenical move. Remember, they had the Rabbi, they had the Imam, they had the Priest, they had the Hindu priest too, all these people who have never, ever entered the Vatican, under this last Pope. They all preached and prayed in the Vatican and all these things, to show, 'no, love, and it's the Age' – united Laodicea.

125I mean, we have been warned by a Prophet. If people don't make it, if people don't wake up, if people—it is because they didn't take time to get acquainted and know what was delivered to us by the Prophet.

126Take over, Mervyn. Go ahead.

127**BRO. MERVYN WESTON:** Well, that answer filled the space. I said, the answer filled the space I wanted.

128**BRO. VIN A. DAYAL:** Yes. The mystery between the sixth and seventh Vials; the kings of the east; the river Euphrates. And notice, verse 12 is the kings of the east and verse 14 is the kings of the earth. So when you go in Revelation 17, you see the kings of the—Revelation 17 and 18, it says the kings of the earth committed fornication with this woman on the scarlet-colored beast, this city that is seated on seven hills. See?

Fornication, which we know, is illicit marriage and these things, and it's also idolatry.

129 So, the kings of the earth which are them, and the kings of the east, also kings... Because Bro. Branham said, now, a dictator is a king that is not crowned. Because we don't have a bunch of kings in the earth in the sense, back then that was the language they wrote in. You see? But they have one king in Buckingham Palace. [Br. Vin laughs -Ed.] I don't know what kind of king he is.

130 They killed his wife, got rid of his wife, because he, all the years, had this concubine at the side, this woman so much older than her, while she had a husband. And then the time came now, when he—the mother was dying and he was going to come into the throne, you know. They can't make her the queen but they gave her some special name to fit. And they put this big adulterous woman, to show you England. Read *Is Your Life Worthy Of The Gospel* [1963-0630E -Ed.]. Bro. Branham said they were having sex in the parks in England. And England, he said, England is gone—was called and rejected the Holy Spirit quite back there. As a nation, it's gone.

131 All these things are... They're all under the Vatican. In our time, we've seen Queen Elizabeth go to the Vatican in black, because they know where the power is. The people in the world do not know because they have to know the Book of Revelation, and denomination stays away from that. And then, the so-called people who want to give their interpretation on Revelation, are men who are aligned with Rome, so they are not preaching anything to expose Rome. When they're finished giving you their slant on the Book of Revelation, you know... Because they are not Spirit-filled. That is for a Spirit-filled people – the Book of Revelation. That is written for the Bride; that's why it's sealed up. It's encrypted just like Daniel.

132Brothers, I put the Church Age book—Bro. Bishop and they did some work, and we wanted to get back a copy of the book that was put out in '65 [1965 -Ed.]. And so, I put it there so that, as we're having these Men's Meeting, the men, each one could have an access to the book and they could even share it. Because, you know, when you have just that, you can share that as well to others, but especially for the men when we come to fellowship on some of these types of things that are happening in the earth that we are seeing, the modern events and the prophecies being fulfilled.

133These things show to us the lateness of the Hour. These things show to us positionally where the Church is, where the kingdom of Babylon, what they are doing. Because you read the Book of Jeremiah, you read the Book of Habakkuk and these things, the Book of Ezekiel, you have the picture right before you because that history is repeating itself. After that history in Jeremiah, Babylon became the ruler of the world. All nations were subjected to Babylon, and that history is what is repeating itself again in the land. That is the prophecy. That is why the Prophet labored so much in the Book of Revelation. But the thing now, we are seeing it coming to pass. When the Prophet preached it, he saw it in infancy form but he knew the Scripture and he knew the future, and he showed us those beasts ride right until the end.

134So, brothers, if you want to share.
